

# NEIGHBOURHOOD NOTICE

February 2012

## Community Workshop

Please join us for a follow up workshop to the World Cafe held on January 31. The second workshop, to be held February 21 from 6:30 - 9:30 p.m. will focus on the campus-neighbourhood boundary along South Street. We want to hear your thoughts and feedback about potential designs that will help to define the boundary along the southern edge of campus. It also became clear during the World Cafe, that many concerns — noise, garbage and smoking — may not be remedied solely through design and building, but also require community partnered solutions.

The February 21 workshop will have a dual focus. We welcome you to join us for the whole evening or invite you to join for the portion of the meeting that is most relevant to you.

We believe the best solutions to our challenges will come in working with you, our community. We need and welcome feedback and ongoing participation to improve the situation.

### Community workshop

When: Tuesday, February 21, 6:30 to 9:30 p.m.

Where: McInnes Room, Dalhousie Student Union Building
