Sexton Construction Update April 17, 2017

Two new buildings are being constructed on Sexton Campus as part of the IDEA Project - a transformational $64-million investment to Dalhousie’s Engineering and Architecture campus. The Emera ideaHUB (formerly known as the Innovation Building) is adjacent to C and C1 Buildings, and the Design Building will be on Morris Street. Five other buildings are being renovated at the same time.

Excavation and Rock Breaking:

- On the Emera ideaHUB site, adjacent to C and C1: Excavation and rock breaking is expected to be complete by May 21. If the noise is too great and interferes with Gerard Hall quiet time and exams, the work will stop and restart on April 25, 2017, once exams are complete. All rock breaking will take place between 9 a.m. and 7 p.m.

C & C1 Renovations - Level 1 & Basement

A portion of the basement of C1 and Level 1 of C & C1 is now closed for demolition and renovation that is expected to be complete in September 2017. Pedestrian traffic will be detoured to level 2 to enable a crossover between Morroy and B Building.

Traffic Disruptions

The installation of the primary electrical, storm and sanitary lines is underway and there will be intermittent traffic disruption along the roadway in front of N, D & F&P Buildings until May 2017.

Upcoming Disruptions (May to August)

On-site noise is expected to increase in late-July and continue until early September due to geothermal work on the Sexton Sports. Please note that class locations and times will be arranged to help mitigate disruption to students.

The renewal of Sexton Campus is underway thanks to the generous support of industry, private donors, the students of Dalhousie and the Government of Canada. Along with the two new buildings, several existing ones will be revitalized over the next two years, adding advanced technology and design labs; state-of-the-art engineering facilities; modern teaching and learning spaces; technology diversity programs; and incubation space linking students and faculty to industry and entrepreneurs.
