2. Activities related to the Faculty Discipline Procedures Concerning Allegations of Academic Offences

The Faculty Discipline Procedures Concerning Allegations of Academic Offences came into effect on September 1, 2007. The Procedures deal with allegations of academic offences and not with alleged violations of the Code of Student Conduct. The purpose of the Procedures is to delegate assessment of certain allegations of academic offences to the Faculty level.

The Academic Integrity Officer of each Faculty is the Dean. However, the Dean may delegate the role of AIO to one or more members of the academic staff of the Faculty. AIOs receive all allegations of academic offences submitted by instructors and the majority of allegations are resolved at the Faculty level. A matter is referred by an AIO to the Senate Discipline Committee (SDC) when the timeline for possible resolution is exceeded, the appropriate penalty is of a greater degree than that which can be recommended by the AIO, or the student does not accept the finding and/or penalty recommended by the AIO. When a student has a prior academic offence on record, the AIO will refer the matter directly to the SDC, unless it is a case of two or more students facing allegations arising from the same fact situation (*common allegation* is further described below).

On a recommendation from the Senate Learning and Teaching Committee, the Senate passed an amendment to the Faculty Discipline Procedures in 2017 such that AIOs now have some discretion with respect to handling prior offence cases. The AIOs must send a request to the Senate Vice-Chair (Student Affairs). Once approved, they can meet with the student, recommend a finding and determine a penalty for prior offence cases.

The joint AIO/SDC meeting was held on May 4, 2026.

3. Number of Students with Proven Allegations ratified between July 1, 2025 and June 30, 2026

Total number of students with proven allegations ratified: *493

Of those allegations ratified, here is a breakdown of students by citizenship status:

Canadian	327
International	107
Permanent Resident	58
Refugee	1

** Refers to cases transferred for ratification of assessment and penalty and cases transferred for ratification of assessment only (determination of penalty by SDC).*

There are cases where an allegation of an academic offence is submitted by an instructor and the AIO determines there is no prima facie case or determines after meeting with the student that the allegation is not proven. Between July 1, 2025 and June 30, 2026 there were approximately 48 students facing allegations where AIOs made such determinations.

4. Distribution of Students with Proven and Ratified Allegations by Faculty

The chart describes the total number of students with proven and ratified allegations broken down by Faculty. The numbers relate to classes that are part of a specific Faculty and may not be the Faculty of the instructor or the student.

Faculty / Unit	Proven Allegations	Proven Allegations

Academic Integrity/Ethics Module/Workshop Requirement	227

Penalties recommended by Academic Integrity Officers are summarized in the table above. The number of penalties is greater than the number of matters ratified, as there can be more than one penalty recommended by the AIO and accepted by the student. For example, one student might experience both failure of the class and a notation on the transcript. In addition, all proven and ratified allegations are recorded in the confidential discipline database maintained by the University Secretariat. Any subsequent allegation against an individual listed in the database would result in the allegation being automatically referred to the Senate Discipline Committee, except in the case of a common allegation, as specified above. The following is a brief explanation of some of the penalties.

¹Notation:

A notation of Senate disciplinary action for an academic offence can be placed on a student's transcript for up to five years. Commonly, a notation is between six months and one year. A notation of two or more years is generally applied only in the case of a second or subsequent offence.

²Warning; reprimand only:

An AIO may determine that a student has committed an academic offence, but that a warning and no penalty is appropriate.

³Writing Centre requirement:

If the offence involves incorrect citation, the student may be required to attend one of the writing workshops or seminars presented by the Dalhousie Writing Centre.

I would like to thank all Academic Integrity Officers, Faculty and support staff, and Dalhousie Student Advocacy Service (DSAS) volunteers who worked diligently over the past year to ensure the success of the Faculty Discipline Process. Dealing with students who are suspected of having committed an academic offence is a challenging task. The cases are, at times, complex and time consuming. Looking back on the past year, I am confident that those tasked with upholding standards of academic integrity at Dalhousie are making every effort to be fair and reasonable with students while at the same time impressing upon students that academic offences are serious. This is not always an easy balance to maintain.

I would especially like to thank Ms. Kara Miller (Coordinator, Discipline & Appeals) and Mr. Bob Mann (Manager, Discipline & Appeals) for their continued work, dedication and effort in supporting the Faculty Discipline Process.
