DALHOUSIE
UNIVERSITY

Why choose a Dal professional master's?

Flexible pathways: Many programs offer part-time, online, or accelerated options—most are course-based, no thesis required.

Career-ready learning: Gain work-integrated experience, connect with industry mentors, and access Dal's global alumni network.

Support that matters: Expert faculty, career services, and our GradPD program help you grow academically and professionally.

U15 university advantage: Learn from top professors, access cutting-edge labs, and earn a globally recognized degree.

"My graduate studies at Dal were both challenging and rewarding. The coursework pushed me, but I gained so much from my professors and projects. Along the way, I built valuable connections, made new friendships, and came away with an experience that was truly fulfilling."

—Monica Satyajit Sathe,
Master of Planning student

Where can it take you?

GRADUATES ARE MAKING AN IMPACT AS:

Marine Conservation Officers (MMM) – Protect oceans and coastal ecosystems for a sustainable future.

Healthcare Leaders (MHA) – Shape healthcare services and improve patient outcomes.

Tech Product Managers (MDI) – Lead innovative digital products that shape how people live and work.

Business Leaders (MBA) – Drive strategy and innovation in organizations.

Sustainable Energy Engineers (MEng) – Design innovative solutions for a greener future.

Urban Planners (MPlan) – Plan communities and cities that balance growth, sustainability, and people's needs.
