

**DALHOUSIE
UNIVERSITY**

**FACULTY OF
AGRICULTURE**

1. Cox Institute is home to the Registrar's Office, Enrollment Management and Recruitment, the Dal Bookstore, ITS, Departments of Plant, Food, and Environmental Sciences and Business and Social Sciences.

2. Banting Building offers high quality learning facilities for engineering students, housing our engineering faculty and facilities in one central location.

3. Alumni Gardens is a popular spot on campus for prom and wedding photos.

4. MacRae Library is home to one of the top university collections in Canada.

5. Langille Athletic Centre is home to the Dalhousie Rams varsity sports teams. Students, staff and members of our larger community share this 40,000 square foot facility and the many programs it offers.

6. Fraser House 7. Chapman House 8. Trueman House - There's no better way to become connected to university life than by living in one of our three residences located on campus.

9. Jenkins Hall houses the campus meal hall with views of the Salmon River valley. This building is also home to the student pub - The Barn.

10. Cumming Hall is where you'll find Alumni Theatre where various large-scale lectures and performances happen. This is our main administration building including the Principal/Dean's Office, Associate Dean Academic, Financial Services, the mail room and student food pantry.

11. Dairy Building is home to Security Services, Student Success and Health Services.

12. The NSAC Rock Garden is the largest east of Montreal and covers just over one-half acre of land situated on a south-facing slope. It consists of a rock face, two dry streams, a gravel scree bed, and a damp area.

13. Landscape Design Studio provides students with a creative space to develop beautiful and sustainable designs.

14. Collins Building is where you will find our tropical greenhouse, lecture rooms and a design studio. There's also equipment and facilities for outdoor activities and Botanical Garden Unit and the Friends of the Garden.

15. Haley Institute has classrooms, labs and offices for Animal Science and Aquaculture and Extended Learning.

16. Farm Complex houses the Ruminant Animal Centre, Boulden Building, Chute Nutrition Centre and the Atlantic Poultry Research Centre.
